

STORIES AND REFLECTIONS FROM THE FRONTLINES OF ABORTION CARE

Catholics for Choice has launched a new multi-year, multi-media campaign to help create a world where stigma and intolerance for abortion provision does not exist.

- **Build a community of providers of faith**—be they security guards, counsellors, doctors, nurses, receptionists, or accountants—to support each other in the important work they do, especially in areas where abortion provision is culturally unacceptable or illegal. Connecting providers of all faiths through online engagement, in-person trainings, and discussion forums that encourage open and honest conversation about the unique challenges presented to abortion providers of faith.
- **Demonstrate that faith is not anathema to reproductive choice** and illustrate that abortion provision is actually moral, ethical and very much aligned with social justice principles. Share a diverse collection of powerful stories that highlight abortion providers and the ways in which their work is grounded in faith through a variety of media platforms including print, digital, television, and podcasts, with a focus on promoting impactful and digestible stories on social media.
- **Inspire talented individuals of faith to become involved in abortion provision** by connecting prospective abortion providers with those that are part of the faithful provider community.

Won't you join us? Contact Amanda Ussak at aussak@catholicsforchoice.org if you'd like to be a part of the worldwide network of faithful providers.
